EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The prior art of record does not disclose or reasonably suggest a combination where a document reader synthesizes speech to output both information about the contents of a document and a page number of a document. Applicants' Specification, Page 9, Lines 8 to 13, discloses that a speech synthesizer reads a title from each page and a page number: "(page number)-th page is (chosen character string)" (example) "second page is table of contents". *Luther* discloses that a speech synthesizer reads only portions of a page, e.g. a first sentence of each paragraph or header information of an e-mail, but does not disclose or reasonably suggest reading page numbers. *Baum* actually teaches avoiding reading page numbers, by including a header/footer avoidance filter to suppress read page number messages. (Column 4, Lines 31 to 47) None of the prior art of record discloses or reasonably suggests reading the page number of a document. *Sturgeon et al.* scans for missing pages, but doesn't read page numbers. Applicants' Specification, Page 2, Line 23 to Page 3, Line 18, and Page 10, Lines 3 to 10, suggests that reading document contents and page numbers may prevent errors when copying or faxing by confirming excess or deficiency of pages.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
